# OPEN ACCESS PATENT DATABASES

Sr. No.	Name	Description	Web Link
1.	Espacenet	The European Patent Office's (EPO) patent search engine, Esp@cenet, searches published patent applications in over 80 countries. It is the most comprehensive free database available, with over 100 million patents. Some countries offer full text, others just citation and abstract	<a href="http://ep.espacenet.com">http://ep.espacenet.com</a>
2.	Industrial Property Digital Library	The JPO (Japanese Patent Office) serves patents from their Industrial Property Digital Library. The PAJ (Patent Abstracts of Japan) database has word searching back to 1976. Their classification system (F1/F-term) search goes back to 1885. There is a three to six month delay in translations to English. The Japan Patent Information Organization (JPIO) offers English-language access to Japanese unexamined patent applications and offers a machine translation of patents	<a href="https://www.j-platpat.inpit.go.jp">https://www.j-platpat.inpit.go.jp</a>
3.	Surfip <b>Co-ordinator</b> <b>IQAC</b> B.L.D.E. Association's LAW COLLEGE, JAMKHANDI	Surfip, the Singapore government's patent database, has a structured search that accesses any or all of the following countries' patent information: U.S., China, UK, Canada, Taipei, Korea, and Thailand. The choices also include EP patents. Interestingly, Japan is not listed. The number of stars in the results list indicates perceived relevance, and an active link leads to the home site for the full document.	<a href="https://www.ipos.gov.sg/resources/patent">https://www.ipos.gov.sg/resources/patent</a>
4.	CIPO	The Canadian Intellectual Property Office (CIPO) database has full patents back to 1920 with text searching for patents back to 1978. Earlier patents are searched by patent number, title, inventor, assignee, or classification.	<a href="http://patents.ic.gc.ca/">http://patents.ic.gc.ca/</a> <b>PRINCIPAL</b> B.L.D.E. ASSOCIATION'S LAW COLLEGE, JAMKHANDI, Dist. Bagalokote

5.	Indian Engine Granted Patents Search	 <p>Current version of search engine IPAIRS Version 2.0 is basically a structured search, i.e. interface providing pre-defined Indexed fields for searching in the database. This version has been improved over previous so as to provide:(i) Increased no. of fields (No. of Parameters for search are now 14)(ii) Combination of Search fields (iii) Inclusion of operators (iv) Distinct (non-repetitive) results (v) Detailed information of Patents (01/01/1995 onwards)</p>	<a href="http://ipindiaservices.gov.in/publicsearch">http://ipindiaservices.gov.in/publicsearch</a>
6.	Google Patents	<p>Google Patents searches only U.S. patents, although they have plans for a global reach. The U.S. patents are searchable in PDF format. Advanced Search provides most common field searching, including CCL and IPC</p>	<a href="http://www.google.com/patents">http://www.google.com/patents</a>
7.	Free patents online	<p>Freepatentsonline has search fields similar to PATFT. It searches U.S., EP, (European), JP (Japanese), and WO (PCT) patents. Alerts, portfolios, and PDF downloading are available with free registration, but only for the sites' word-searchable patents (i.e., U.S. from 1976).</p>	<a href="http://www.freepatentsonline.com/search.html">http://www.freepatentsonline.com/search.html</a>
8.	Patent Lens	<p>Patent Lens, created by CAMBIA, an independent, international non-profit, has a structured search and range of coverage similar to SurfIP. Country coverage is different, however: full text of PCT (1978-present), USPTO (AppFT, and PATFT (1976-present), EPO (1980-present) and IP Australia (applications and patents 1998-present).</p>	<a href="https://www.lens.org/lens/">https://www.lens.org/lens/</a>
9.	PATFT  <b>Co-ordinator IQAC</b> B.L.D.E. Association's LAW COLLEGE, JAMKHANDI	<p>The USPTO's PATFT searches and serves over 7,000,000 patents and includes all three types of patents (utility, design and plant). Word searches only find patents from 1976 to the present. Prior patents must be searched by issued date, patent number or classification number.</p>	<a href="http://patft.uspto.gov">http://patft.uspto.gov</a>
10.	WIPO	<p>PATENTSCOPE allows you to search 30 million patent documents including 2.2 million published international patent applications (PCT).</p>	<a href="https://www.wipo.int/reference/en/">https://www.wipo.int/reference/en/</a>
